

HAIDER OVIEDO MARTINEZ

INGENIERO
DE SISTEMAS -
FULL STACK DEVELOPER

PROFILE

I am a passionate application developer with over 9 years of experience, specializing in web application development. My expertise stands out in PHP, Javascript, and frameworks such as Laravel, Codeigniter, and Symfony. I have more than intermediate knowledge in Vue.js, while I am in the process of acquiring more than basic skills in C#, Ruby on Rails, and NextJS. I am also exploring the world of Python.

As a constantly evolving professional, I have intermediate-level skills in JavaScript frameworks such as Angular, React, and Node.js, allowing me to approach web projects with modern and efficient approaches.

- Ease of learning new tools and technologies.
- Good interpersonal relationships.
- Ability to work under pressure and quickly.
- Independent and teamwork capabilities.
- High performance under pressure.

SKILLS

EDUCATION

Systems Engineer

Cooperative University of Colombia
2012
